

We moved to a bungalow with ¹ only one loo
Thinking one ^{was} enough for ~~only~~ ^{just} us two
Two loos are plenty from one up to six
but one loo for two puts you in quite a
fix.

It life is short tempered &
short taken to

This blasted Bungalow with only one loo
Deciding against a war of attrition
we sat down, reviewed & discussed our
position.

Having refurbished most ~~things~~ ^{ROOMS} in
the last year or two

We decided this year was the year
for loo two.

Having thought long & hard &
measured right through

In the back yard
will just have to do.

~~Having~~ ^{THEN} measured, again every which way
we can

We've decided ~~that~~ now ~~we can~~
TO

draw up ~~the~~ ¹ ² plan

Down to the council for planning
No need.

Now the building regs. but that's a
different breed.

Submit your plan Sir to make your
bid.

Oh by the way Sir that'll be
a hundred quid

Good grief that's a lot ^{IT'S REALLY} ~~strange~~ to much
Almost ~~as~~ as bad as a kick in the crotch

Not really Sir there ~~are~~ lots to approve
All sorts of things to get on
the move.

We'll need postcards from you I know
it's a bore.

For me to come & check the hardcore
Bye the way Sir even more of a
pain

Another post card to check on the drain
First things first though submit
your plan

3

So that you remain well in the van

We waited a while for approval to come

When the letter arrived we were struck quite dumb

Approval not granted it simply said listing two items in the bright of red you've stated the height & walls so thick.

But please state construction I do hope it's brick

The other item to add I must hasten

You've made no mention of a wash hand basin

Also if I may make so bold we would like it equipped with hot & ^{with} cold

For on addition like that the loo for to thin

Even walking sideways well

4

never get in.

Steady now we mustn't Panic
Or lapse into ~~the~~ depression Moric
Think & think what can we do
To widen the inside of our ^{NEW} loo
It ^{turned} out to be a successful think
We'll recess the wall for an inset sink
Off went the new revised plan
Back came the reply of course you can
Geosting the materials ^{newly} made me
flip.

But huge savings were made at
the local tip

New U.P.V.C window I just couldn't
pass

Only three quid without any glass

Two sinks one cracked with two
super tops

One nearly new with two tapless
gaps.

One very good toilet, cistern &
lid

5
low level type only ten quid.

The loo built now all^{is} complete

Looking (I'm biased) surprisingly neat

Standing here in front of the loo

To try it out seems the right
thing to do

There's plenty of room no ~~sign~~^{HINT} of a
crush.

THE SOUND OF THAT

Just listen to ~~that~~ ~~man~~ ~~and~~ ~~flush~~

Having done I hope & pray

It will pass ^{THE} final ~~test~~^{test}
sway.
